EXPERIENCE / PERSONAL PROJECTS

Full-Stack Web Developer internship

LionsGeek

10/2023 - 12/2023 Casablanca, Ain sebaa

- Collaborated with a team of four developers to design and implement a versatile management system, enabling seamless booking of classes, studios, and equipment through an intuitive calendar interface.
- Technologies used : Laravel - MySQL - Tailwind**
- Worked on the application's authentication system, implementing twofactor authentication (2FA) to enhance security
- Developed a comprehensive mailing system to efficiently deliver all reservation details to the appropriate recipients.
- Developed 90% of the CRUD operation on the application.

Personal Projects

Libro

https://libro-two.vercel.app

account: admin@admin.com | 123456789

- Developed a PDF book management application using React and TypeScript, allowing users to effortlessly upload, organize, and categorize their book collections
- Implemented advanced data validation and type safety with Zod and TypeScript, creating a highly robust and error-resilient codebase.
- Designed and styled the user interface with Tailwind CSS, creating a responsive, intuitive, and visually appealing user experience across devices

ChatLab

https://chat-lab-brown.vercel.app

accounts: user1@user.com | 123456789 - user2@user.com | 123456789

- Developed a real-time chat application using React and Firebase, enabling seamless communication between users
- Implemented Firebase Firestore for efficient, real-time data management, ensuring instant message delivery and syncing across devices
- Utilized React hooks and context API to manage application state and maintain clean, modular code architecture.
- Optimized performance and user experience through lazy loading and code splitting, reducing initial load times and improving overall responsiveness

EDUCATION

Full-Stack Web Developer Training

LionsGeek

04/2023 - 09/2023 Casablanca, Ain sebaa

Bachelor's Degree in Renewable Energy

Higher School of Technology

Essaouira
